

## 7<sup>th</sup> International Congress

# Engineering, Environment and Materials in Processing Industry

March 17<sup>th</sup> - 19<sup>th</sup> 2021

Jahorina, Hotel "Termag"

Faculty of Technology Zvornik

### Organized by:

University of East Sarajevo  
Faculty of Technology Zvornik  
Republic of Srpska  
Bosnia and Herzegovina

### Under the auspices of:

Ministry of Scientific and Technological  
Development, Higher Education and  
Information Society of the Republic of Srpska

Academy of Science and Arts of the  
Republic of Srpska

### Co-organized by:

Union of Engineers and Technicians of Serbia, Belgrade, Serbia  
Faculty of Technology and Metallurgy, Belgrade, Serbia  
Faculty of Food Technology, Osijek, Croatia  
Institute of Physics, Belgrade, Serbia

### Endorsed by

ISEKI-Food Association,  
Vienna, Austria

European Federation of  
Chemical Engineering

Dear fellow colleagues,

In these challenging times the importance of scientific and technological research excellence for a resilient processing industry is evident. Therefore, we invite you to help us keep the processing industry moving forward by submitting your innovative and creative research for the **7<sup>th</sup> International Congress Engineering, Environment and Materials in Processing Industry**, scheduled for **March 17<sup>th</sup> - 19<sup>th</sup> 2021**.

***EEM21 will be different!** There are many changes, including the venue, the program, scientific topics and their wider presentation, the emphases, etc. In all these cases, we assure future participants that the changes have not been sudden - we've been developing these ideas for the past two years.*

We invite you to **register, submit your manuscript and apply for a poster or oral presentation.**

### Why register?

- Listen to an outstanding line-up of plenary and invited speakers who will deliver an excellent program.
- Engage with poster presenters and hear about the latest discoveries in this exciting field.
- Network and interact with colleagues, friends and future collaborators.
- Enjoy the beautiful Jahorina Mountain.
- Students submitting oral or poster presentations can also apply for the Student discount.

We continue to welcome our plenary speakers, contributing authors, sponsors and exhibitors to Mt Jahorina.

For more information about EEM21, please consult [EEM21 website](#). Visit our [accommodation](#) and [venue](#) pages for useful information to help you make travel and accommodation arrangements.

**We look forward to receiving your submissions and hope you will join us at the EEM21 Congress.**

### SCIENTIFIC PROGRAM

- Plenary lectures
- Oral presentations
- Poster presentations

### PROGRAM TOPICS

- Chemical and Electrochemical Engineering
- Food Engineering and Biotechnology
- Environmental Engineering
- Materials and Material Characterization
- Nanotechnology
- Inorganic Chemistry and Technology
- Organic Chemistry and Technology, Polymers
- Plasma Technology
- Energy Efficiency and Renewable Energy Sources
- Textile Engineering
- Corrosion and Protection of Materials and Thermal Power Plants
- Metallurgy
- Management in the Processing Industry
- General Sections

This Congress aims to promote a wide and constructive discussion on the current status and achievements in the processing industry. Therefore, it is our pleasure to present you **our Supporting Publications and Publishing Opportunities:**

## SN Applied Sciences

*SN Applied Sciences* is a multi-disciplinary, peer-reviewed journal for the disciplines of Chemistry, Earth and Environmental Sciences, Engineering, Materials Science and Physics published by Springer Nature. In cooperation with Editors of SN Applied Sciences, EEM21 offers

to the participants of the Congress to submit their manuscripts to the dedicated Topical Collection of SN Applied Sciences designed to consolidate Congress publications for greater visibility. Submissions to the dedicated Topical Collection of SN Applied Sciences will be open from Feb 1<sup>st</sup> to April 30<sup>th</sup>, 2021 for all interested participants of the EEM21 Congress.

All submissions sent to the journal SN Applied Sciences will go through a review process and will be screened by the journal's editorial office for completeness and adherence to the instructions for authors and ethical standards for publication. Manuscripts must be submitted through the platform [Editorial Manager](#).

For more information, please visit the [SN Applied Sciences journal website](#).

## Journal of Engineering & Processing Management

*Journal of Engineering & Processing Management* is an Academy-led, peer-reviewed journal published by the Faculty of Technology Zvornik, University of East Sarajevo. The journal fosters sound scientific discovery to solve practical problems. The journal encourages articles that present a good understanding of scientific knowledge, theories, methods and techniques, as well as interdisciplinary linkages. The work described should be innovative either in the approach or in the methods in order to be considered for review and publication. For more information, please visit the [Journal of Engineering & Processing Management journal website](#).

**The Chairs of the Scientific & Organizing Committee look forward to welcoming you to Jahorina Mountain in March 2021!**

Each paper can only be published in one journal. However, the abstracts of all papers presented at the EEM21 Congress will be published in the electronic book of abstracts, whereas Conference Proceedings will be available for those who wish to publish full papers.

## Hemijska industrija

The Journal *Hemijska industrija* (abbreviation Hem. Ind.) is an international journal publishing papers in the field of Chemical and Biochemical Engineering, Materials and Environmental Engineering, as well as Applied Chemistry.

Six issues are published annually by the Association of Chemical Engineers of Serbia (a member of the EFCE - European Federation of Chemical Engineering).

After nomination by the Scientific Committee of EEM21 manuscripts will be considered for the review process and potential publication as one of the following types of contributions: a) Original scientific papers and b) Technical papers (a brief description of a specific development, technique or procedure, or it may describe a modification of an existing technique, procedure or device applicable in industry or practice).

For more information about the manuscript preparation and submission process, please visit the [Hemijska industrija journal website](#).
